

✂ Please cut these 14 appliqué templates (see below) out of plastic template material **before** class. Do **NOT** add seam allowances to templates. Dash line on template edge indicates overlap.

NOTE: Faxing or electronic transmission of this template page may result in distortion of the size of the templates. When printing this page for the purpose of tracing accurate templates, the box surrounding these templates should measure 7 $\frac{3}{4}$ " x 4 $\frac{1}{4}$ ". If you find that the box is markedly different in size, you must enlarge (or reduce) the size so the templates are accurate when you trace them.

Important! If you have received this supply list template page from the web or via email as a PDF document, to print templates to an accurate size, select "Print", then in the Page Handling/Page Scaling box select "None" or "No Scaling".
